

EXECUTIVE ORDER D-660-13

Relating to Exemptions under Section 27156  
of the California Vehicle Code

Cobb Tuning  
Subaru Fuel Pressure Sensor Kit

Pursuant to the authority vested in the California Air Resources Board (CARB) by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That the installation of the Subaru Fuel Pressure Sensor Kit, produced and marketed by Cobb Tuning, 2311 West Rundberg Lane, Suite 500, Austin, Texas 78758, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems, and therefore, is exempt from the prohibitions in Section 27156 of the Vehicle Code for installation on those vehicles listed in the attached Exhibit A.

The Subaru Fuel Pressure Kit consist of a fuel pressure sensor, a billet fuel line adapter and a TGV wiring harness. No changes are made to the stock ECU calibration or any other part for proper installation.

Changes made to the design or operating conditions of the Subaru Fuel Pressure Sensor Kit, as exempt by CARB, which adversely affect the performance of the vehicles' emission control system, shall invalidate this Executive Order.

Marketing of the Subaru Fuel Pressure Kit using any identification other than that shown in this Executive Order or for an application other than that listed in this Executive Order shall be prohibited unless prior approval is obtained from CARB.

This Executive Order shall not apply to any Subaru Fuel Pressure Kit advertised, offered for sale, sold with, or installed on a motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

This Executive Order does not constitute any opinion as to the effect the use of the Subaru Fuel Pressure Kit may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on an engineering evaluation which demonstrated that the installation of the Subaru Fuel Pressure Sensor Kit does not increase exhaust emission levels, and an examination of the OBD II system showed that there is no effect on OBD II operation.

CARB reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of California Code of Regulations, Title 13, Section 2222, et seq. Further, if test results or other evidence provides CARB with reason to suspect that the Subaru Fuel Pressure Kit will affect the durability of emission control systems, Cobb Tuning shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified parts demonstrate adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY CARB OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE SUBARU FUEL PRESSURE KIT.

No claim of any kind, such as "Approved by the California Air Resources Board," may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this Executive Order. The Executive Order may be revoked only after a ten day written notice of intention to revoke the Executive Order, in which period the holder of the Executive Order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request, and the Executive Order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 27<sup>TH</sup> day of August 2019.

Allen Lyons, Chief  
Emissions Certification and Compliance Division
